

SPECIMEN LABEL

ACIDIFIER - PENETRANT - DEPOSITION AID - DRIFT CONTROL AGENT - pH INDICATOR

SPECIALTY ADJUVANT SYSTEM DESIGNED FOR AGRICULTURE USE & NON-CROPLAND AREAS

PRINCIPAL FUNCTIONING AGENTS:

A proprietary blend of acidifier, surfactants,
 colorant and drift reduction technologies 80%
 Constituents ineffective as an adjuvant 20%
 100%

All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN CAUTION / PRECAUCION

If you do not understand this label, find someone to explain the proper use of this product in detail before proceeding.

Si usted no entiende la etiqueta, busque a alguien que se la explique en detalle antes de proceder con el uso de este producto.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eyes.

* Have the product container or label with you when calling a Poison Control Center or Doctor, or going for treatment.

In Case of Emergency, Call CHEMTREC: (800) 424-9300

GENERAL INFORMATION

AM-AG 5 In ONE™ is a multi-tasking adjuvant team that conditions the carrier water and helps to prevent the rapid breakdown of alkaline pH sensitive pesticides such as glyphosate, organophosphates, carbamates and synthetic pyrethroids. To assist the operator, an indicator dye that causes the solution to turn pink when the pH is at an optimum 4.5 to 5.5 is built into the formulation.

AM-AG® 5 In ONE™ improves penetration of the active ingredient through waxy, resistant epicuticular tissue for more complete uptake and transport to the mode of action site. Without altering the viscosity of the spray solution, **AM-AG® 5 In ONE™** helps to form spray droplets that are able to resist pump shear and remain within the optimum range for best deposition and reduced drift away from the intended target.

DIRECTIONS FOR USE

FOR NON-FOOD USE ONLY

Follow the directions on the most restrictive active ingredient label.

Does NOT contain ammonium sulfate.

Use only if a surfactant, penetrant, acidifier, and drift control agent is allowed or not excluded on the label.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

MIXING INSTRUCTIONS

All instructions assume that the starting solution is clear or white. The colors of the active ingredients and adjuvants such as marking dyes can alter the tint of the color change. Fill the mixing tank 2/3 full of water. Begin agitation and add an amount of **AM-AG® 5 In ONE™** until the solution turns pink.

Add the nutrients and/or active ingredients and the balance of the mixing water to fill the tank. If the mix turns clear after this addition, add more **AM-AG® 5 In ONE™** until the solution turns pink again.

The amount of **AM-AG® 5 In ONE™** needed will depend on the mineral content (hardness) of the water source which can vary widely. The rate will increase as the mixing water hardness varies from soft (0-100 ppm) to extremely hard (>400 ppm).

USE RATES

Application	Use Rate (Per 100 Gallons Per 100 Gallons of Spray Solution)
Herbicides, defoliants, aquatic	1 - 4 pints
Insecticides, fungicides, fertilizers	1/2 - 2 pints
Turf, ornamental and industrial	1 - 4 pints (1-3 ounces per 5 gallons)
For pH adjustment (initial pH 6.5 - 8)	4 - 8 ounces
Drift retardant	1 - 2 quarts
As a pH indicator colorant	5 - 32 ounces

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. Do not store in mild steel or aluminum containers. Do not store near strong oxidizers. Shake well before using. If product freezes, allow it to thaw, and then shake well. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE AND WARRANTY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded. AM-AG, LLC (AM-AG) warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions AM-AG neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability. The directions for use of this product should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application weather and crop conditions presence of other materials, or other influencing factors, all of which are beyond the control of AM-AG and Seller. Buyer ad user acknowledge and assume all risks and liability resulting from the handling storage and use of this material not in strict accordance with directions given herewith. In no case shall AM-AG or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by AM-G and is accepted as such by the buyer.
